

Machinist on the trimming line (m|f|d)

Gossau SG, Switzerland

As a leading company in the timber industry and in timber and silo construction, Blumer Lehmann uses the diverse potential of wood innovatively and in the sustainable value-added cycle. Our employees are committed to a wide range of customer projects at our headquarters in Gossau SG, at our locations in Switzerland, Germany and Luxembourg, as well as on assignments around the world.

Your tasks

- You will operate and control our modern CNC processing systems (trimming and or cutting systems)
- You actively think along with us and thus improve our production processes

Your skills and experience

You have completed basic training as a woodworker EBA, carpenter EFZ or timber construction foreman or have practical experience with computer-controlled woodworking equipment. You enjoy working independently, but also feel comfortable working in a team. You take responsibility and (advantageously) appreciate the benefits of 2-shift work

We offer

We offer you an exciting job in a successful and future-orientated company. In a safe working environment, you can contribute and develop yourself. We cultivate an appreciative approach and the necessary humour at work is a must.

We look forward to hearing from you. Simply get in touch with a "short application". Of course, you can also submit your application documents via our online application form.

We look forward to
receiving your application
documents via our homepage.
